Project Title: West Ham United F.C.

I will probably use the well-designed footy websites as inspiration for this one (like soccerbible or copa90). I love a long paged website that has almost hidden interactions for interior pages. I will let the photography attached to broad information guide the bulk of the website, while the interior pages can have the more specific information.

- **First Look:**

Photos that demonstrate the deep history of the club, some unique form of navigation, and simple, accessible information about the club

- **Birth of West Ham:**

Crest, Hooliganism, Rivalries, The Boleyn Ground

- **The Glory Years:**

The Players, Trophies, Concluding in Relegation

- **Modern Day West Ham:**

London Stadium, Manager History, Striker Curse, Players, European Trophy
